The MacNiff Horticultural Co.

52, 54 and 56 Vesey Street

New York

NEVER in the History of the Bulb Kingdom has the opportunity presented itself to the lovers of flowers to obtain the World's best at the low prices existing to-day, in fact at prices less than cost of production, and this in addition to the fact that what we are offering you are not the seconds that were formerly imported to America. (The Exhibition Bulbs formerly were sent to England for the Estates of the Nobility.) We are offering this Exhibition stock that was grown especially for England, and which could not be sent there on account of the embargo. War conditions have entirely closed the English Markets for goods of a luxurious nature.

We are also offering in this Catalogue, French, Japanese and Bermuda Grown Bulbs of various kinds.

A careful reading of this Catalogue and a comparison of the prices attached to the various kinds of bulbs with those offered elsewhere, will convince you of the truth of our statement as regards prices, and a trial purchase of some of our bulbs will prove to you the exactness of our statement about their size and quality.

It was a daily occurrence last Spring to receive from our many thousand customers, bouquets of Tulips, etc., grown from our bulbs by them, and which were truly Exhibition Flowers. This season the bulbs will in size and quality surpass those offered last year.

THE MACNIFF HORTICULTURAL CO.

IMPORTANT

**TO OUT-OF-TOWN BUYERS WHO SEND US THEIR
ORDER THROUGH THE MAIL**

All prices in this Catalogue are F. O. B. New York City by Express. This is the safest way to ship goods, because we hold the Express Company's receipt for the goods, and the Company is responsible for any loss. Furthermore, the goods usually arrive in better condition shipped this way, and lastly, it is the most economical way for the buyer. Very large shipments are sent by freight, when the buyer so requests.

MACNIFF'S PREPARED FIBRE

IMPORTED FROM HOLLAND

Holland's Best Substitute for Soil

Bulbs may be grown in this "Prepared Fibre" in any non-porous bowl or jardiniere, which has no drainage hole in its bottom. There will be no drip from these receptacles to soil the house furnishings, and the bulbs, when in bloom can be used much more conveniently and safely for house decoration than when growing in soil in pots with drainage holes.

When planting bulbs in this fibre, do not press them down into it, but make a hole for each bulb with a small trowel or broad-bladed knife, and barely cover the bulb, pressing the fibre only lightly about it. Put the bowls of bulbs in a **dark, airy** cellar or room and allow them to remain there, until the sprouts are about one inch above the soil, then bring them out into a room where there is a little more light and a little higher temperature, and still later give them the full light of the window.

The most important of all the work of growing bulbs in "Prepared Fibre" (as well as in soil) is to constantly keep this fibre from the time the bulbs are planted until the time they are through blooming, **evenly moist throughout**, but never over-wet or soggy. By turning the bowl on its side, a test can easily be made whether water has collected in the bottom of the bowl or not and if so, this surplus water may be allowed to run out. As the bulb puts forth more foliage, and comes into the bud and blooming period, it will require more water than in the earlier stages of its growth, and as has been said before, **at no time must the "Prepared Fibre" be allowed to become dry.**

"Prepared Fibre" is much easier and pleasanter and cleaner than soil to handle.

Prices of MacNiff's "Prepared Fibre." Quart, 10c.; Peck, 50c.; $\frac{1}{2}$ bushel, 80c.; Bushel, \$1.40.

LILIES

That the Lily is the most stately and among the most beautiful of all flowers, and that it is deservedly one of the most popular was long ago an accepted fact. Its form, color, poise and fragrance make it a perfect flower. Whether growing in the garden or conservatory or window-garden it is equally admirable. *Lilium Harrisii* (The Bermuda Easter Lily) and *Candidum* (The Annunciation Lily) and *Formosum* arrive in this country and are on sale in August, but the other species of Lilies, such as *Auratum*, etc., commonly classed as hardy Lilies, do not reach this country until November, and the ground should be ready for planting these outdoors at once, otherwise outside planting must be deferred until Spring. Nearly or quite all the hardy, as well as the more tender varieties of Lilies, may be forced into bloom indoors in pots.

LILIUM HARRISII
(Bermuda Easter Lily)

Pure waxy white flowers of great substance, and delightfully fragrant; easily forced into bloom; not hardy in the North.

Our Poultry, Seed and Plant Departments

A few remarks of interest to you

We have in stock in our Poultry Department at all times a complete assortment of Poultry, also Pigeons, Rabbits, Etc. We have in operation large coal burning Colony Hovers, where we mother thousands of Baby Chicks, which are hatched by our Mammoth Incubators which we operate continuously throughout the season. We also have Incubators with special appliances, for demonstration purposes, in which the Chicks may be seen picking their way out of the shell. Do not fail to call and see this wonderful exhibition.

During the various seasons of the year we have a miniature Madison Square Poultry Exhibit where you can select Pullets, Cockerels, Yearlings, Cock Birds, Etc., at popular prices, birds that are good enough for any exhibition. We have the most complete stock of Poultry Supplies that can be found anywhere in New York City.

Our Seed Department is up-to-date in every particular and in this department you will also find a complete stock of Fertilizers and Implements. Our Seeds are the best that nature can produce, and the wonderful growth of our seed business, speaks for itself, for with truly fresh seed and good cultural advice, there can only be a successful garden.

We eliminate high prices by not issuing elaborate catalogues. Knowing the high cost of living to-day, we aim to give our customers the old or normal price, and put all our products within reach of everybody's pocketbook.

When you are in the market for any of nature's supplies do not fail to call upon us, whether it is for Bulbs, Seeds, Plants, Fertilizers, Implements, Live Poultry, Poultry Supplies, Pet Stock, Etc.
